Organization Profile

About us

Inneurope
Innovation & Finance

01

Located in Valencia, Spain, we are specialists in European programs, **Open Innovation** and **Startup growth**, and experts in Fintech, Health, Climate and AI.

02

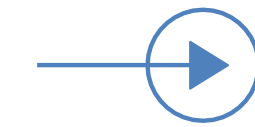

Members of **INNDIH**, the **European Digital Innovation Hub** of the for the Valencian Region, funded under the Digital Europe Initiative.

03

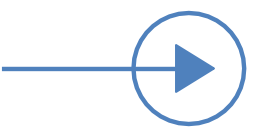

More than **100 projects funded by the European Union** targeting the digital and green transition, obtained for Inneurope and/or its partners.

04

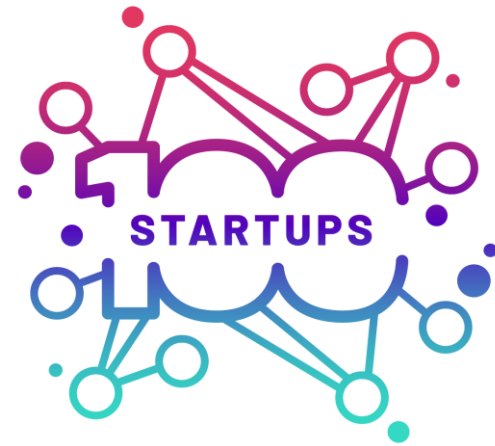

Through our International Innovation Hub (**I2Hub**), we build **Open Innovation Programs** for corporates connecting with Startups and Scaleups. Our startup ecosystem represents **more than 3,000 startups** around the world.

05

Our **European Training School** has successfully trained more than 8,000 students from the **private and public sectors** on **European funding** and Innovation.

Global partnerships around the world

The most disruptive startup meeting for digital transformation connecting the innovation ecosystem

We are Digital Innovation Hub of the European Union, being part of the EDIH network

We are partners of ATEFI for the promotion of their innovation programs in collaboration with the LATAM - European ecosystems

Founders of The TALENT ROUTE: 25 Innovation Hubs from connecting Europe and LATAM

Founders of EFI: European Fintech Innovation Association

Erasmus for Young Entrepreneurs

Intermediary Organization connecting new entrepreneurs around Europe

Our Services

EUROPEAN PROJECTS

We are leaders in European project management: 500 million euros managed across more than 25 countries.

INNOVATION & STARTUPS

We foster open innovation by connecting the best startups with multilateral banks and corporations.

TRAINING

We have more than 15 years experience training companies and public administrations in European funds and grants.

ECLIPSE

Deployment and demonstration of applications for energy consumers.

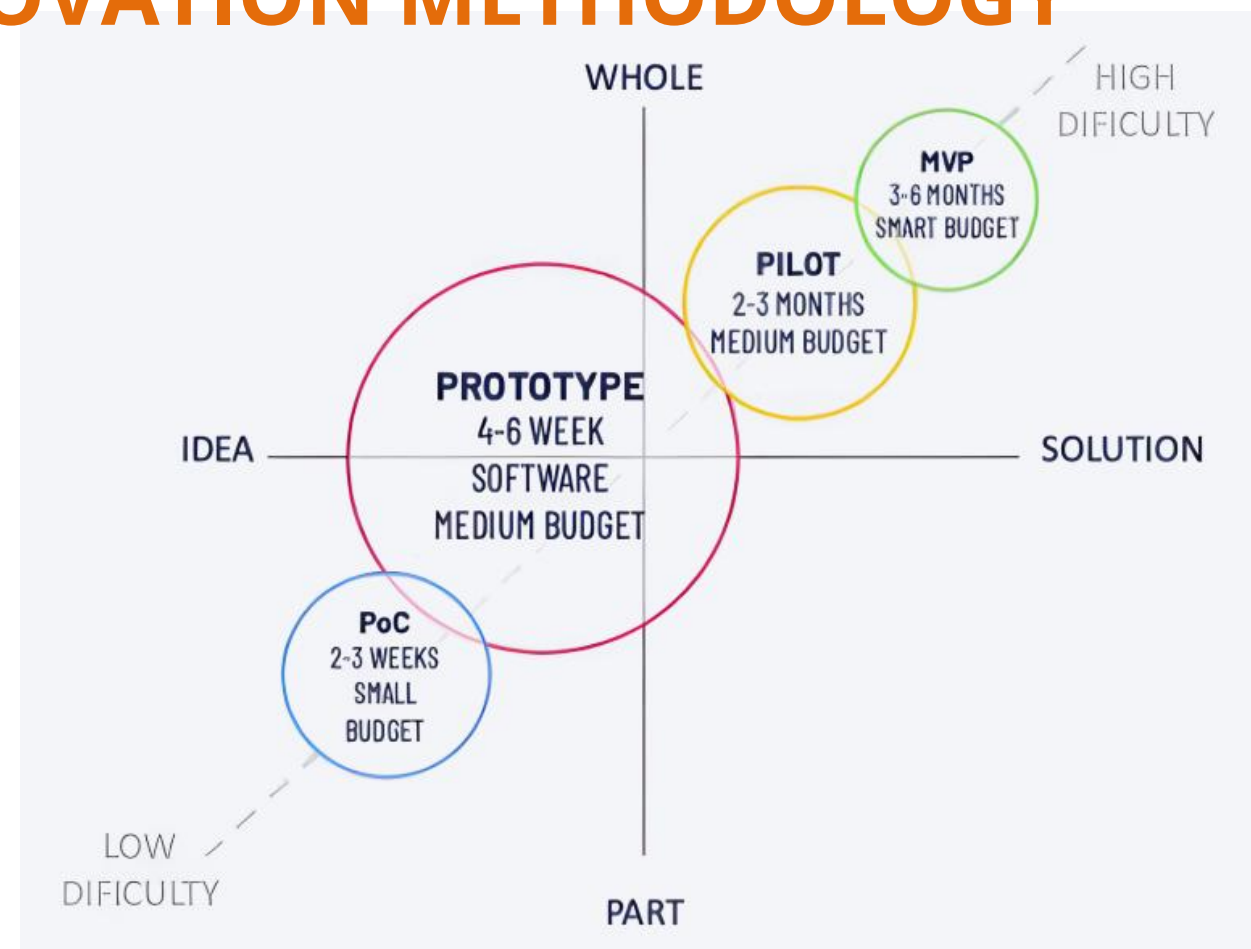

DIGITAL EUROPE

OPEN INNOVATION FROM THE HEART OF STARTUPS

We drive the sustainable growth of startups through Open Innovation programs that we develop with **global corporations, development banks, international organizations, and governments** around the world. Our goal is to bring the best technology to the forefront of the **major millennium challenges in key areas such as climate, health, education, and sustainable finance.**

INNOVATION METHODOLOGY

OPEN CHALLENGES

STARTUPS

We work with the world's best startups to connect their solutions with our corporate clients.

INSTITUTIONS

We drive Tech4Dev initiatives in collaboration with multilateral development banks and international organizations.

CORPORATES

We design and execute innovation challenges that enable companies to adapt their technology projects to the pace of the market.

International Innovation Hub (I2Hub)

Our **International Innovation**

Program connects the challenges of international organizations and multilateral development banks in key areas such as climate, health, and education with leading European startups.

We are located at **The Terminal Hub**, in La Marina de Valencia, one of Spain's main innovation ecosystems.

We organize the **European Tech Discovery Week**, a week-long introduction to leading European technologies through their key players.

NEW INITIATIVES

AI4CLIMATE

THE GLOBAL PLATFORM FOR TECH-DRIVEN RESPONSES TO NATURAL DISASTERS

This initiative is the global innovation program for **tech against natural disasters and urban reconstruction**, looking to attract best projects and ideas in AI to fight against climate change with global and sustainable perspectives.
